

AKG K240 Studio Headphones

Price: PKR 18,000

Key Features

- Semi-Open Design for Natural Sound
- Wide Frequency Response for Accurate Monitoring
- Lightweight and Comfortable for Long Sessions

Complete Description

The AKG K240 Studio headphones are designed for professional and home studio environments, offering natural and accurate sound reproduction. The semi-open design provides a balanced listening experience with an extended soundstage, making them suitable for mixing and critical listening.

These headphones feature a wide frequency response, ensuring that both low and high-end details are captured accurately. The lightweight design and cushioned ear pads allow for extended use without discomfort, perfect for long recording or mixing sessions.

Additional Highlights

- High-quality drivers for clear and detailed audio
- Detachable cable for convenience and portability
- Ideal for studio monitoring, mixing, mastering, and casual listening
- Durable construction ensures long-lasting performance
- Comfortable fit for professional and home studio users
