

# TMA27A Tripod

**Price:** PKR 38,000

## Key Features

- Aluminum Legs
- Twist Lock System
- Supports Up to 12kg Load

## Complete Description

The TMA27A tripod is a versatile and durable support system designed for photographers and videographers who need reliable stability. Constructed with high-quality aluminum legs, this tripod provides a lightweight yet strong platform for cameras of various sizes.

The twist lock system allows for secure and quick adjustments of the tripod legs, enabling fast setup and flexibility during shoots. With a maximum load capacity of 12kg, it can support heavy cameras and professional equipment safely.

## Additional Highlights

- Adjustable leg angles for uneven terrain
- Lightweight design for easy portability
- Suitable for both indoor and outdoor photography
- Compatible with DSLR, mirrorless, and medium format cameras
- Ideal for long-exposure, landscape, and studio photography
