

SM6 Microphone Shockmount

Price: PKR 9,500

Key Features

- Provides Microphone Isolation
- Built-in Pop Filter
- Adjustable Angle for Optimal Positioning

Complete Description

The SM6 microphone shockmount is designed to improve vocal recording by isolating the microphone from vibrations, handling noise, and other mechanical disturbances. Its built-in pop filter minimizes plosive sounds, ensuring clearer and professional-quality audio.

The adjustable angle feature allows precise positioning, making it suitable for various recording setups, including home studios, professional studios, podcasting, and streaming environments. It provides stability and support for microphones, enhancing overall recording quality.

Additional Highlights

- Reduces unwanted noise and vibrations from desk or stand movements
- Durable construction for long-lasting use
- Compatible with most standard microphones and stands
- Ideal for podcasters, streamers, and voice-over artists
- Easy to attach and adjust according to recording needs
