

NIKKOR Z 24-70mm Lens

Price: PKR 90,000

Key Features

- Constant f/4 Aperture for Consistent Exposure
- Advanced Optics for High Image Quality
- Internal Zoom Mechanism for Compact Design

Complete Description

The NIKKOR Z 24-70mm lens is a versatile standard zoom lens designed for Nikon Z-mount mirrorless cameras. Its constant f/4 aperture ensures consistent exposure across the zoom range, ideal for both photography and video.

Featuring advanced optics, this lens delivers sharp images with minimal distortion, chromatic aberration, and flare. The internal zoom mechanism keeps the lens length constant during zooming, allowing smooth operation and maintaining balance for handheld shooting.

Additional Highlights

- Suitable for landscapes, portraits, events, and general photography
- Fast and accurate autofocus for both stills and video
- Compact and lightweight design for portability
- Durable construction for professional use
- High contrast and vibrant color reproduction
