

# MD-3 Microphone

**Price:** PKR 1,800

## Key Features

- Type-C Plug
- Compact Design
- Noise Reduction

## Complete Description

The MD-3 microphone is a compact and affordable solution for mobile recording and streaming. Its Type-C plug allows direct connection to compatible smartphones, tablets, and laptops, ensuring convenience and portability.

Designed with noise reduction technology, the MD-3 minimizes background noise for clearer audio, making it suitable for calls, voice recording, and online content creation. Its compact design allows for easy transport and use on the go.

## Additional Highlights

- Lightweight and portable for mobile use
- Ideal for vlogs, online meetings, and mobile recording
- Easy plug-and-play setup with no additional drivers required
- Durable construction for everyday use
- Compatible with most Type-C devices
