

# Cylindrical Lens Hoods

**Price:** PKR 19,999

## Key Features

- Blocks Unwanted Light to Reduce Lens Flare and Ghosting
- Provides Physical Protection for the Lens
- Made from Durable and Lightweight Material

## Complete Description

Cylindrical lens hoods are essential accessories for photographers looking to improve image quality and protect their lenses. These hoods prevent stray light from entering the lens, which reduces lens flare and ghosting, ensuring clearer and higher-contrast images.

In addition to improving image quality, cylindrical hoods provide physical protection by shielding the lens from accidental impacts, scratches, and dust. Their durable yet lightweight material ensures ease of use without adding unnecessary bulk.

## Additional Highlights

- Compatible with a variety of lens diameters and types
- Helps maintain optimal image contrast and color fidelity
- Easy to attach and remove
- Essential for outdoor photography and bright lighting conditions
- Suitable for both amateur and professional photographers

## Specifications Table

Feature	Description
Function	Blocks unwanted light, protects lens
Material	Durable and lightweight plastic or metal
Compatibility	Various lens diameters (check hood size)
Design	Cylindrical shape for optimal shading
Application	Outdoor photography, studio use, general photography
