Complete Description

The Delkin-D 128GB memory card is a high-performance and durable storage solution designed for photographers, videographers, and professional users. With UHS-I V30 speed class and a write speed of 90MB/s, it ensures smooth recording of Full HD and 4K video and reliable performance for high-resolution photography.

This memory card is shock and water-resistant, providing extra protection in harsh or outdoor conditions. Its robust construction ensures long-lasting reliability, making it suitable for both professional and casual use.

Additional Highlights

- Ideal for Full HD and 4K video recording
- Durable construction for challenging environments
- Reliable performance for professional photography and videography
- Compact and portable design
- Compatible with cameras, drones, camcorders, and other devices
