

# MT190XPRO4 Tripod

**Price:** PKR 45,000

## Key Features

- Aluminum Build
- Quick Power Locks
- 90° Column System

## Complete Description

The MT190XPRO4 tripod is a professional-grade support system designed for photographers and videographers who require stability, versatility, and durability. Made from high-quality aluminum, it provides a solid and reliable foundation for cameras of various sizes.

Its quick power locks enable fast and secure leg adjustments, saving time during setup and repositioning. The 90° column system allows photographers to switch from traditional vertical shooting to low-angle or macro photography easily, enhancing creative possibilities.

## Additional Highlights

- Adjustable leg angles for uneven terrain
- Supports heavy camera loads with ease
- Durable and lightweight for portability
- Easy to collapse and transport
- Ideal for landscape, studio, and outdoor photography
