

Sigma 50mm f/1.4 DG Lens

Price: PKR 19,999

Key Features

- Wide f/1.4 Aperture for Low-Light Shooting and Shallow Depth of Field
- Advanced Lens Coatings for Reduced Flare and Ghosting
- Smooth Autofocus and Beautiful Bokeh for Creative Photography

Complete Description

The Sigma 50mm f/1.4 DG lens is a high-quality prime lens suitable for various camera mounts, designed to deliver professional-level image quality. Its wide f/1.4 aperture allows for excellent low-light performance while producing a shallow depth of field for artistic background blur (bokeh).

Advanced lens coatings minimize flare and ghosting, ensuring high-contrast, color-accurate images in challenging lighting conditions. The smooth and precise autofocus system provides reliable performance for both photography and video recording.

Additional Highlights

- Ideal for portrait, street, and low-light photography
- Durable construction for frequent use in studio or outdoor settings
- Compact and portable design for easy transport
- Produces sharp and detailed images with minimal distortion
- Excellent bokeh for creative and professional-looking shots
