

# Neumann TLM 102 Condenser Microphone

**Price:** PKR 244,500

## Key Features

- Large Diaphragm Condenser
- Handles Up to 144 dB SPL
- Compact and Lightweight Design

## Complete Description

The Neumann TLM 102 Condenser microphone is a professional studio microphone designed for vocals, instruments, and high-fidelity recordings. Its large diaphragm ensures precise and detailed sound capture, providing a natural and transparent audio output.

With the capability to handle up to 144 dB SPL, the TLM 102 can record both soft and extremely loud sound sources without distortion. Its compact and lightweight design makes it easy to position in various recording environments, from home studios to professional setups.

## Additional Highlights

- Excellent transient response for accurate reproduction of percussive sounds
- Low self-noise for clean and professional-quality recordings
- Suitable for voiceovers, podcasting, and studio vocals
- Durable and robust construction ensures long-lasting performance
- Compatible with standard XLR interfaces and microphone stands
