

Alta Pro 263AB Tripod

Price: PKR 22,500

Key Features

- Aluminum Legs
- Multi-Angle Capabilities
- Quick Locks for Fast Setup

Complete Description

The Alta Pro 263AB tripod is a versatile and durable support system designed for photographers and videographers. Its aluminum legs provide strength and stability while remaining lightweight for easy transport. The tripod features a multi-angle central column system, allowing users to adjust the column to any angle for creative shooting perspectives, including low-angle and macro photography.

Quick locks enable fast and secure adjustments of the tripod legs, making setup and repositioning effortless. The Alta Pro 263AB is ideal for studio, outdoor, and travel photography, providing a reliable platform for DSLR and mirrorless cameras.

Additional Highlights

- Adjustable leg angles for uneven terrain
- Supports a variety of camera sizes and weights
- Compact and portable for travel and outdoor use
- Ideal for landscape, macro, and professional photography
- Durable and long-lasting construction
