

Sony FE 24-70mm Lens

Price: PKR 119,999

Key Features

- Versatile Focal Length for Various Shooting Scenarios
- Advanced Optics for High-Quality and Sharp Images
- Faster and Accurate Autofocus for Still Photography and Video

Complete Description

The Sony FE 24-70mm lens is a high-performance standard zoom lens designed for Sony E-mount full-frame mirrorless cameras. Its versatile focal length makes it ideal for portraits, landscapes, events, travel, and everyday photography.

The advanced optics provide sharp, high-contrast images with minimal distortion and chromatic aberration. Its fast autofocus ensures precise focus on moving subjects, making it suitable for dynamic shooting conditions and video recording.

Compact and lightweight, the lens is easy to carry, offering convenience without compromising performance. It also produces beautiful bokeh for creative depth-of-field effects, enhancing portrait and close-up photography.

Additional Highlights

- Excellent low-light performance with consistent aperture across zoom range
- Smooth zoom and focus operation for professional filming
- Durable construction for frequent use in professional and home studios
- Ideal for both photography and videography applications
- High image fidelity with minimal color fringing and flare
