

# Aokeo Professional Pop Filter

**Price:** PKR 3,500

## Key Features

- Flexible Gooseneck for Easy Positioning
- Clamp Mount for Secure Attachment
- Dual-Layer Mesh for Effective Plosive Reduction

## Complete Description

The Aokeo Professional Pop Filter is designed to improve vocal recording quality by minimizing plosive sounds and breath noise. Its dual-layer mesh effectively reduces harsh sounds from 'p' and 'b' pronunciations, ensuring smooth and clear audio capture.

Equipped with a flexible gooseneck, the filter can be easily adjusted to the ideal position for any recording setup. The clamp mount allows quick and secure attachment to standard microphone stands or boom arms, making it suitable for home studios, professional setups, and content creation.

## Additional Highlights

- Lightweight and durable for long-term use
- Compatible with most standard microphones and boom arms
- Ideal for podcasting, streaming, voice-over, and studio recording
- Enhances vocal clarity and overall sound quality
- Easy to install and adjust for any recording scenario
