

Leica Q3

Price: PKR 90,000

Key Features

- 60MP Full-Frame Sensor
- Digital Zoom
- 8K Video Recording

Complete Description

The Leica Q3 is a high-end full-frame compact camera designed for professional photographers and enthusiasts who demand exceptional image quality. With a 60MP full-frame sensor, it delivers ultra-high-resolution images with incredible detail, dynamic range, and color accuracy.

The camera supports digital zoom for added flexibility, making it suitable for a variety of shooting scenarios from landscapes to portraits. Additionally, the Leica Q3 can record 8K video, allowing creators to produce cinematic footage with stunning clarity.

The Leica Q3 combines intuitive controls, a sleek design, and premium build quality to ensure a professional shooting experience. Its fast autofocus system, built-in image stabilization, and high-speed processing make it ideal for both stills and video.

Additional Highlights

- Fast and accurate autofocus system
- Built-in electronic viewfinder for precise framing
- Tilting touchscreen LCD for versatile angles
- Compact and robust body design
- Supports wireless connectivity for easy sharing and remote control
- Advanced color profiles for professional-grade imaging
- Ideal for travel, street, and landscape photography
