

# Canon EF 50mm f/1.8 STM Lens

**Price:** PKR 35,000

## Key Features

- Bright f/1.8 Aperture for Low-Light Performance and Shallow Depth of Field
- Compatible with Full-Frame and APS-C Canon Cameras
- STM (Stepping Motor) for Smooth and Quiet Autofocus

## Complete Description

The Canon EF 50mm f/1.8 STM lens is a versatile prime lens designed for both full-frame and APS-C Canon DSLR cameras. Its bright f/1.8 aperture allows photographers to capture sharp images in low-light conditions while achieving beautiful background blur (bokeh) for creative compositions.

Equipped with an STM stepping motor, the lens provides smooth and nearly silent autofocus, ideal for still photography as well as video recording. Its lightweight and compact design makes it easy to carry for everyday use and travel.

## Additional Highlights

- Ideal for portraits, street photography, and general-purpose shooting
- High optical performance with excellent sharpness and contrast
- Durable construction suitable for frequent use
- Fast and responsive autofocus for dynamic shooting scenarios
- Produces professional-looking bokeh for artistic effects
