

Nikon AF-S 50mm f/1.8G Lens

Price: PKR 39,000

Key Features

- Fast f/1.8 Aperture for Low-Light Performance and Shallow Depth of Field
- Lightweight and Compact Design for Portability
- Compatible with Nikon F-Mount/FX Format Cameras

Complete Description

The Nikon AF-S 50mm f/1.8G lens is a high-performance prime lens designed for Nikon DSLR cameras. Its fast f/1.8 aperture allows for excellent low-light performance and the ability to achieve smooth, artistic background blur (bokeh) for portraits and creative photography.

This lens features a lightweight and compact design, making it easy to carry for everyday photography and travel. The AF-S Silent Wave Motor ensures fast, precise, and quiet autofocus, suitable for both stills and video recording.

Additional Highlights

- Ideal for portrait photography, street photography, and low-light shooting
- High optical performance with excellent sharpness, contrast, and color accuracy
- Durable construction suitable for frequent use
- Smooth and silent autofocus for minimal disruption in recordings
- Produces professional-quality bokeh and background separation
